

LAYING THE PATH FOR LIFELONG WELLNESS

INFANT AND EARLY MENTAL
HEALTH LECTURE SERIES 2022

OVERVIEW

This year, the Infant and Early Mental Health Promotion (IEMHP) organization at The Hospital for Sick Children has partnered with the World Association of Infant Mental Health (WAIMH) and Tampere University to develop and offer a unique lecture series on infant and early mental health. This series will offer practitioners around the world the opportunity to hear directly from some of the pioneers and experts of infant and early mental health research and practice. This web-based series will provide insight into the foundational science of infant and early mental health, the importance of promotion and prevention policies and strategies, evidence-based interventions, and treatment approaches. The structure of the series aligns with the Competency Framework developed by IEMHP.

TRAINING DETAILS

Includes 15 recorded lectures (each approximately 90 minutes to two hours in length) and access to additional resources provided by presenters. Please note new lectures will be uploaded as they are recorded.

- All 15 sessions will be available by September 2022. Learners will be receiving an email announcement when a new lecture is uploaded. Learners may choose to complete the Lecture Series as sessions become available (first lecture will be available on February 22, 2022) or after all 15 sessions have been uploaded.
- Learners will be eligible for the Certificate of Completion after successfully viewing all 15 lectures and completing the associated feedback surveys.
- Learners will have access to 13 Bonus lectures from the 2020/21 Lecture Series (an additional 26 hours of content).
- Access to all lectures ends September 2024.
